

Remote Work Policy

Policy ID: HR-014 | Effective: July 2026 | Owner: People Operations

Portfolio-use notice: This is a fictional enterprise policy created solely for educational, testing, and portfolio demonstration purposes. It does not represent the practices of a real organization.

1. Purpose

The Remote Work Policy defines eligibility, approval requirements, security expectations, and workspace standards for employees working outside a Vertex Dynamics office.

2. Eligibility

- Employees must have completed at least 90 days of service unless the role was hired as fully remote.
- The position must be suitable for remote performance and the employee must be meeting performance expectations.
- Remote arrangements require written manager approval and may be modified based on business needs.

3. Work Location

Employees must work from the state or province recorded in the HR system. Working from another jurisdiction for more than 10 consecutive business days requires advance approval from People Operations and Tax.

4. Availability and Meetings

Remote employees must remain reachable during core collaboration hours from 10:00 a.m. to 3:00 p.m. local time and attend required video meetings with cameras on when practical.

5. Equipment and Expenses

Vertex Dynamics provides a company laptop and standard peripherals. Employees may claim up to \$500 once every three years for approved home-office equipment and up to \$60 per month for internet reimbursement.

6. Information Security

- Company work must be performed on approved devices using multi-factor authentication.
- Confidential conversations should not be conducted in public areas where they may be overheard.
- Employees must use the corporate VPN when accessing restricted systems over public or shared networks.

7. Exceptions and Review

Remote-work exceptions are reviewed by the employee's manager and People Operations. The company may revoke an arrangement when performance, security, compliance, or operational needs require a change.
